

Effective Classroom Support (Teaching Assistants' Programme)

Hosted by Blackfriars on behalf of
The Golden Thread Teaching School Hub

Ideal for those who are new to the role or who are looking to develop SEND learners

The programme will explore the EEF Making Best Use of Teaching Assistants guidance and how to apply the recommendations to support pupils. Participants will work with experienced facilitators from special school settings and who are part of DfE Whole School SEND.

From the programme, the TSH will create networking groups for teaching assistants to work together and share best practice. Participants will have the opportunity to implement strategies in their own setting for the benefit of the individual pupils in their care.
