

North Midlands Science Learning Partnership The Golden Thread Teaching School Hub

Developing an Excellent Primary Science Curriculum Network

This network is designed to support primary science subject leaders. You will have access to 3 network meetings and an opportunity to share best practice between sessions, receive personalised additional support and access to our community group resources.

Make your booking now for just £90.00 per school.

An outstanding curriculum will engage and motivate children, be challenging and aspirational and be relevant to all children. It will be flexible and responsive to the needs of the children taking their background and locality into account.

This network will give opportunities to Science Subject Leaders and teachers to develop a vision and intent for their curriculum and understand the elements that go into a strong curriculum. It will address the need to ensure effective implementation and how a subject leader can best ensure this. There will also be a strong focus on planning for impact and how this can be monitored and evaluated.

The programme includes 3 network sessions which will be delivered remotely using Microsoft Teams from 4:00pm to 5:30pm with expert facilitators.

Spring Term Network Meeting: Wednesday 16th March, repeated on Wednesday 30th March 2022.

Summer and Autumn 2022 Term Network Meeting dates to be confirmed.

4:00-5:30pm Wednesday 30th March 2022 (virtual)
